Professional Summary

2026 B.Tech graduate with a strong foundation in Java backend development, Spring Boot, Hibernate, REST APIs, and MySQL. Hands-on experience building backend applications, medication tracking workflows, prescription management systems, and data analytics dashboards.

Education

NRI Institute of Technology, Andhra Pradesh Bachelor of Technology in Information Technology	CGPA: 8.89 / 10.0 Graduated: 2026
Sri Gayatri, Andhra Pradesh Intermediate	865 / 1000 2022
St. Joseph English Medium High School, Andhra Pradesh High School	563 / 600 2020

Technical Skills

- **Programming Languages:** Java, Python
- **Backend:** Spring Boot, Hibernate, Spring Data JPA, REST APIs, Exception Handling
- **Database:** MySQL, JDBC
- **Tools:** Git, GitHub, Postman, MySQL Workbench, Power BI, MS Excel

Projects

Spring Boot Modular Monolith Backend

Technologies: Spring Boot, Hibernate, MySQL

- Designed a modular backend with reusable entity logic using @MappedSuperclass.
- Implemented generic service logic, global exception handling, and REST APIs for CRUD operations.
- Built a Search API using the Aggregator pattern to query multiple modules through a single endpoint.

Smart Medication Tracking System

Technologies: Spring Boot, Spring Data JPA, MySQL

- Worked as a Backend Developer in a 5-member team during the Infosys Springboard Internship.
- Developed backend modules for prescription management, medication tracking, and doctor-patient workflows.
- Managed patient, doctor, medicine, prescription, and medication tracking data using Spring Data JPA and MySQL.

Indian Food Delivery Analytics Dashboard

Technologies: Power BI, Power Query, Excel

- Built an interactive dashboard using a 10,000-row dataset after cleaning null values, mixed date formats, and currency inconsistencies.
- Created KPI cards, charts, slicers, and trend visualizations for orders, revenue, ratings, and delivery analysis.

Bank Management System

Technologies: Java, JDBC, MySQL

- Developed a Java-based banking application for account creation, deposits, withdrawals, and balance inquiry.
- Integrated MySQL using JDBC for secure customer data storage and retrieval.

Certifications

- Introduction to Machine Learning – NPTEL, IIT Kharagpur
- Generative AI: Prompt Engineering Basics – IBM, Coursera
- Artificial Intelligence Fundamentals – IBM SkillsBuild
- Internship 6.0: Smart Medication Tracking System – Infosys Springboard
